Paper - 1 : Accounting

Chapter - 1 : Accounting Standards

2018 - May [1] {C} (b)

(i) **False; As per AS 1 "Disclosure of Accounting Policies",** certain fundamental accounting assumptions underlie the preparation and presentation of financial statements. They are usually not specifically stated because their acceptance and use are assumed. Disclosure is necessary if they are not followed.

(ii) **False; As per AS 1,** if the fundamental accounting assumptions, viz. Going Concern, Consistency and Accrual are followed in financial statements, specific disclosure is not required. If a fundamental accounting assumption is not followed, the fact should be disclosed.

(iii) **True;** To ensure proper understanding of financial statements, it is necessary that all significant accounting policies adopted in the preparation and presentation of financial statements should be disclosed. The disclosure of the significant accounting policies as such should form part of the financial statements and they should be disclosed in one place.

(iv) **False;** Any change in the accounting policies which has a material effect in the current period or which is reasonably expected to have a material effect in later periods should be disclosed. Where such amount is not ascertainable, wholly or in part, the fact should be indicated.

(v) **True; As per AS 1,** there is no single list of accounting policies which are applicable to all circumstances. The differing circumstances in which enterprises operate in a situation of diverse and complex economic activity make alternative accounting principles and methods of applying those principles acceptable.

2018 - May [1] {C} (d)

As per AS 10 Property, Plant and Equipment

Bearer plant is a plant that

(a) is used in the production or supply of agricultural produce;

(b) is expected to bear produce for more than a period of twelve months; and

(c) has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales.

(d) The following are **not bearer plants**:

- (i) plants cultivated to be harvested as agricultural produce (for example, trees grown for use as lumber);
- (ii) plants cultivated to produce agricultural produce when there is more than a remote likelihood that the entity will also harvest and sell the plant as agricultural produce, other than as incidental scrap sales (for example, trees that are cultivated both for their fruit and their lumber); and
- (iii) annual crops (for example, maize and wheat).

When bearer plants are no longer used to bear produce they might be cut down and sold as scrap, for example, for use as firewood. Such incidental scrap sales would not prevent the plant from satisfying the definition of a bearer plant.

Biological Asset is a living animal or plant.

2018 - May [7] (c)

Re-classification will be done on the following basis:

(i) As per AS 13, where investments are reclassified from current to long term, transfers are made at lower of cost and fair value on the date of transfer. In this case, fair value is ₹ 37,000 which is lower than the cost of ₹ 39,000. The reclassification of current investment as long-term investments will be made at ₹ 37,000.

(ii) As per AS 13 'Accounting for Investments', where long-term investments are reclassified as current investments, transfers are made at the lower of cost and carrying amount at the date of transfer. The carrying / book value of the long term investment is same as cost i.e. ₹ 16 lakhs. Hence this long term investment will be reclassified as current investment at book value of ₹ 16 lakhs only.

Working Notes:

1. Total Sales = ₹ 49,70,000 -₹ 1,40,000= ₹ 48,30,000
   Total Sales = Cash sales + Credit sales
   Let Cash Sales = a
   Total Sales = a + (a x 75%)
   Therefore Cash sales is Total sales/ 1.75
   Cash Sales = ₹ 48,30,000/ 1.75 = ₹ 27,60,000
   Credit Sales = ₹ 20,70,000 (75% of ₹ 27,60,000)

2. Cash Collection = 90% of 8,78,500 + 80% of 20,70,000
= ₹ 7,90,650 + ₹ 16,56,000
= ₹ 24,46,650
3. Bad debts recovered will not appear in the Total Debtors Account. It should be credited to Profit and Loss Account.

Chapter - 12 : Hire Purchase and Instalment Sale Transactions

2018 - May [5] (a)

(i) **Calculation of Interest and Cash Price**

Ratio of interest and amount due = 8/(100 + rate of interest) i.e. 8/108

To ascertain cash price, interest will be calculated from last instalment to first instalment as follows:

No. of instalments	Amount due at the time of instalment	Interest	Cumulative Cash price
[1]	[2]	[3]	(2-3) = [4]
3rd	12,000	8/108 of ₹ 12,000 = ₹ 889	11,111
2nd	23,111[W.N.1]	8/108 of ₹ 23,111 = ₹ 1,712	21,399
1st	33,399 [W.N.2]	8/108 of ₹ 33,399 = ₹ 2,474	30,925
		5,075	

Total cash price = ₹ 30,925 + 12,000 (down payment) = ₹ 42,925

Working Notes:

1. ₹ 11,111 + 2nd instalment of ₹ 12,000 = ₹ 23,111
2. ₹ 21,399 + 1st instalment of ₹ 12,000 = ₹ 33,399
