DESCRIPTIVE QUESTIONS

- 2017 - Dec [9]** (a) Give a brief introduction to GST in India. **(5 marks)**
 (b) What is the impact of GST on Centre-State relations and how are they streamlined? **(4 marks)**
 (c) How is the concept of "Consideration" understood for levy of GST? **(4 marks)**
 (d) State the benefits of GST to the customers. **(3 marks)**

Answer:

- (a)** GST stands for Goods & Services Tax. GST which is effective from 1.07.2017 is very significant step in the field of indirect tax reforms in India. GST has replaced various indirect taxes such as Service Tax, VAT, Excise etc. except Customs in India. The main reason behind this was to consolidate all indirect taxes into one thus making "ONE NATION, ONE TAX". GST in India is a comprehensive multistage tax it has eliminated cascading effect of taxation and reduce tax burden on goods and services.

The first announcement for introduction of GST was made in budget speech on 28.2.2006 by the then Union Finance Minister. It was proposed to introduce national wide GST w.e.f. 1.4.2010.

Various steps were taken towards introduction of GST. The task for designing GST was given to empowered committee of state finance ministers. The first discussion paper was released by Empowered on 10th November 2009. The discussion paper spells out the features of proposed GST.

The Central Government notified 1.7.2017 as date from which GST has been implemented.

- (b) Before introduction of GST in India i.e. upto 30.6.2017 the structure of indirect taxes in India was based on three lists in VIIth Schedule to Constitution of India. The centre had the power to levy tax on the manufacture of Excisable goods (except alcoholic liquor for human consumption, opium, narcotics etc.) while the States had the powers to levy tax on sale of goods. However in case of interstate sale CST was levied by centre but tax was collected and retained by state Government. In case of services the Central Government was empowered to levy service tax.

In case of importation of goods into or exportation from India, tax as additional duties of customs, which was in addition to the Basic Customs Duty and additional duty of customs {commonly known as Counter Veiling Duty (CVD) and Special Additional Duty (SAD)} counter balances excise duties, sales tax, State VAT and other taxes levied on the like domestic product the duties are levied and collected by Central Government.

Due to introduction of GST there was requirement for amendment in constitution, so that GST can be levied and collected simultaneously by central and state government. Hence Article 246A and 269A is inserted in constitution of India by Constitution (One hundred and first Amendment) Act 2016.

- (c) **consideration Sec. 2(31):** in relation to the supply of goods or services or both includes:

(a) Any payment made or to be made	<ul style="list-style-type: none"> • Whether in money or otherwise • In respect of , in response to or for the inducement of, the supply of goods or services or both, • whether by the recipient or any other person • but does not include any subsidy given by the Central Government or a State Government.
------------------------------------	--

(b) the monetary value of any act or forbearance

- In respect of , in response to or for the inducement of, the supply of goods or services or both,
- whether by the recipient or any other person
- but does not include any subsidy given by the Central Government or a State Government.

Provided that a deposit given in respect of the supply of goods or services or both shall not be considered as payment made for such supply unless the supplier applies such deposit as consideration for the said supply.

Explanation:

1. Consideration can be in monetary form i.e. by cash, cheque or credit card bank transfer etc. or in Non monetary form i.e. in kind such as Barter, exchange, doing agreeing to do an act etc. or partly in monetary form and partly in non monetary form.
2. In respect of, in response to means there must be direct link between the supply and the consideration.
3. Inducement means to give something to a person so that other person will do something in return.

(d) Benefits of GST to the customers

- (i) Reduction in price of goods and services
- (ii) Uniform price throughout the country
- (iii) Trust in Simpler tax system: The previous indirect tax structure was very complicated to understand. GST increase the level of transparency and trustworthiness of consumer.
- (iv) Better accessibility of goods and services.
- (v) Due to introduction of Composition scheme small supplier will be exempted from tax or pays Tax at lower rate which reduce cost for the consumer.
- (vi) Average tax burden on companies is likely to come down which is expected to reduce prices and lower prices mean more consumption.

2018 - June [2] (a) What is the difference in tax consequence between intra-State (from HO to branch in same State) and inter-State stock transfers (from HO to branch in different State) of the same supplier, which is a private limited company ? What kind of GST will be levied? **(6 marks)**

Answer:

GST is levied on supply of goods or services or both by supplier having a GST number. However, in case of intra state i.e. supply of goods or services or both by HO to branch in same state, will not attract any GST if supplier has only one GST registration. But if a supplier has taken more than one registration in one state, then GST will be levied which comprise of CGST plus SGST.

In case of inter state stock transfer from HO to branch in different state of same supplier IGST will be levied because in case of inter state supplies separate registration is required.

In case of intra state supply CGST plus SGST will be levied and in case of inter state supply IGST will be levied.

TOPIC NOT YET ASKED BUT EQUALLY IMPORTANT FOR EXAMINATIONS

DESCRIPTIVE QUESTIONS

Q1. WHAT IS GST?

Answer:

GST stands for Goods and Services tax. It means tax on supply of goods or services or both except tax on supply of the alcoholic liquor for human consumption.

- GST in India is a Comprehensive Multi stage; Destination based tax which is levied on every value addition made by Assessee.

- | |
|---|
| • Comprehensive: because 17 types of taxes are subsumed under GST. |
| • Multistage means:- GST is levied on each stages of supply i.e. from manufacture to final sale to consumer. |
| • Value Addition means: the monetary worth added at each stage of supply i.e. manufacturer ⇒ wholesaler ⇒ Retailer ⇒ consumer |
| • Destination based means: GST is levied at point of consumption. For example if goods are manufactured in UP & sold to MP then revenue will go to M.P. |

Q2. What are the reasons for amendment in Constitution of India for introducing GST?

Answer:

As we know that **Article 246** provide for distribution of power between Central & State and if there is any inconsistency between law made by Central & State then how to deal with it is provided in Article 254. Therefore in GST to levy and collect tax SIMULTANEOUSLY by Central & States there is requirement for amendment in Constitution.

Hence Article 246A & 269A is inserted in Constitution of India by Constitution (One Hundred and First Amendment) Act 2016.

- **Article 246:** It provides that Parliament has exclusive power to make laws on matters mentioned in LIST I in the Seventh Schedule (i.e. Union List)
State List i.e. List II provides that State Government has Exclusive power to make law on matters mentioned in State List.
Concurrent List i.e. List III: It provides that parliament and the legislature of any state also have power to make laws in respect of matters mentioned in List III in the seventh Schedule.
Article 246 also provides that Parliament has power to make laws in respect to any matter for any part of the Territory of India not included in a state even though such matter is enumerated in the State List.

Article 254: provides that if any Provision of Law made by State is Repugnant to any provision of a law made by Parliament which parliament is competent to enact or to any provision of an existing law related to matter enumerated in Concurrent list **THEN** subject to provision of clause **(2)** the **LAW MADE BY PARLIAMENT SHALL PREVAIL** and law made by state to the extent of the REPUGNANCY be VOID.

Clause (2) it provides that if law made by legislature of State in respect of Matters enumerated in Concurrent list contains any provision REPUGNANT to the provision of Earlier law or Existing law made by Parliament with respect to that matter THEN LAW MADE BY STATE SHALL PREVAIL if that matter has been reserved for the Consideration of President and has received his assent.

ARTICLE 246A:

- **Article 246A has been given an overriding effect over Article 246 & 254.**
- It provides special provision with respect to Goods and services Tax.
- **Clause (1)** provides that notwithstanding anything contained in articles 246 & 254, Parliament and Subject to Clause (2) the legislature of every state, have power to make laws with Respect to Goods and Services Tax imposed by the Union or by such state.
- **Clause (2)** Parliament has exclusive power to make laws with respect to goods and services tax where supply of Goods or services or both takes Place in course of INTER-STATE TRADE or COMMERCE.

Article 269A inserted which provide for

Levy and collection of Goods and Services Tax in course of Inter – state trade and commerce:

- (1) Goods and services tax on Supplies in the course of Inter state trade or commerce shall be levied and collected by the Government of India and such tax shall be apportioned between Union and the State in the manner as may be provided by Parliament by law on Recommendation of Goods and Services tax Council.
 - **Explanation:** for the purpose of this clause , supply of Goods or of Services or Both in the Course of IMPORT into the Territory of India shall be deemed to be supply of goods or of services or both in the Course of INTER STATE TRADE or Commerce.
- (2) The amount apportioned to a state under clause (1) shall not form part of the Consolidated fund of India.
