DISTINGUISH BETWEEN

2008 - Dec [4] (a) Distinguish between the following :

(iii) 'Calls-in-arrears' and 'calls-in-advance'. **(3 marks) [CSEM - I]**

Answer :

Point	Calls-in-Advance	Calls-in-Arrear
Meaning	A company may receive from a shareholder the amount remaining unpaid on shares. This is known as call-in-advance.	When calls are made upon shares allotted, the shareholders holding the shares are bound to pay the call money within the date fixed for such payment. If a shareholder makes a default in sending the call money within the appointed date, the amount thus failed is called calls-in-arrear.

2014 - June [2] (a) Distinguish between 'securities premium' and 'share premium'. **(3 marks)**

Answer:

Issue of Shares at Premium:

When shares are issued at a price higher than the face value, they are said to be issued at a premium. Thus, the excess of issue price over the face value is the amount of at a premium. For example, if a share of ₹ 10 is issued at ₹ 12, $(12-10) = ₹ 2$ is the premium.

The premium on issue of shares should be regarded as capital receipt. The Companies Act requires that when a company issued shares at a premium whether for cash or otherwise, a sum equal to the aggregate amount of the premium collected on shares must be credited to a separate account called "Securities Premium Account."

Securities Premium: The term securities premium implies premium received from issue of securities e.g. preference shares, equity shares, bonds, debentures etc.

DESCRIPTIVE QUESTIONS

2008 - Dec [3] (a) Comment on the following statements:

- (i) As a matter of prudence, whole of free reserves should not be utilised in the case of buy – back of shares.
- (iii) In case of under- subscription of shares, question of returning the money does not arise at all. **(3 marks each) [CSEM - I]**

Answer :

- (i) According to **Section 68(1) of the Companies Act, 2013** states that a company may purchase its own shares or other specified securities from out of:

1. its free reserves; or
2. the securities premium account; or
3. the proceeds of any shares other than specified securities **[Sec. 68 of Companies Act, 2013]**.

However, as a matter of prudence, the entire free reserve should not be utilized for the purpose of buy-back and the following items should be adjusted against free reserves to arrive at the net amount of free reserve that can be utilized for the purpose of buy-back;

- (a) Unamortised deferred revenue expenditure.
- (b) Contingent liabilities likely to mature and not provided for.
- (c) Purchase goodwill.
- (d) Any diminution of long term investments not provided for.

Answer:

- (iii) In practical situation, it rarely happens that the number of shares applied for is exactly equal to the number of shares offered to public for subscription. In case of under subscription of shares, the number of shares applied is less than the number of shares issued. All applications are accepted in full.

If the minimum subscription has not been subscribed, all applications money may be required to be returned.

However, in case of over subscription of shares, the shares issued are less than the number of shares applied, such situation is called over subscription of shares.

2009 - Dec [4] (b) "Issue of bonus shares by the subsidiary company does not affect the cost of control." Comment. **(6 marks) [CSEM - I]**

Answer :

Issue of bonus shares by the subsidiary Company will be recorded in the book of accounts in which manner is depended upon the fact that from which source the bonus shares has been issued. Issue of bonus shares may or may not affect the cost of control depending upon whether such shares are issued out of pre-acquisition profit or out of post acquisition profit.

(i)	Issue of bonus out of capital profit (Pre acquisition profit)	If the bonus shares have been issued out of pre-acquisition profit or reserve, then it does not have any effect on the consolidated balance sheet. The reason for this is that due to issue of bonus shares, the share of holding company in pre-acquisition profit is reduced and on the other hand paid-up value of the shares held by them is increased. Hence cost of control or goodwill remains the same as it was before the issue of bonus shares.
(ii)	Regarding the issue of bonus share out of post-acquisition profit	If the bonus shares have been issued out of post acquisition profit, then it does not affect the consolidated balance sheet. Due to this issue of bonus shares, the share of holding company will reduce in post-acquisition profit that is revenue profit and there will be increase in the paid-up value of shares held by the Company. Due to increase in paid up value, there will decrease in cost of control or increase in capital profit.

2010 - June [4] (c) “Buy-back may be misused by the corporate entities at the cost of innocent investors.” Give your comments. **(3 marks) [CSEM - I]**

Answer :

It is feared that the buy-back may be misused by the corporate entities at the cost of innocent investor because of the following reasons:-

- (i) It will provide enough opportunity for insider trading —The promoters, before the buy-back may understate the earning by manipulating accounting policies in respect of depreciation, valuation of inventories etc. This would lead to a fall in the quoted prices of shares and the promoter would buy them at low quotations. In this way, the insiders would earn extra money when the company buy-backs these shares at a lowest price.
- (ii) Buy back may lead to artificial manipulation of stock prices.

2011 - June [4] (b) What are the conditions which must be fulfilled for redemption of preference shares ? **(6 marks) [CSEM - I]**

Answer :

As per **Section 55 of the Companies Act, 2013** the conditions which must be fulfilled for redemption of preference shares are as follows :

1. Such shares must be fully paid up.
2. Such shares shall be redeemed only out of profits or out of the proceeds of a fresh issue of shares made for the purpose of redemption.
3. In case the company proposes redemption of shares out of the profits of the company, there shall, out of such profits, be transferred, a sum equal to the nominal amount of the shares to be redeemed, to a reserve, to be called the Capital Redemption Reserve Account, and the provisions of this Act relating to reduction of share capital of a company shall, except as provided in this section, apply as if the Capital Redemption Reserve Account were paid-up share capital of the company.

The capital redemption reserve account may be applied by the company, in paying up unissued shares of the company to be issued to members of the company as fully paid bonus shares.

4. Certain class of companies as may be prescribed and whose financial statements comply with the accounting standards prescribed under **section 133**, for such class of companies, the premium if any, payable on redemption shall be provided for out of the profits of the company, before the shares are redeemed. For other companies the premium if any, payable on redemption shall be provided for out of the profits of the company or out of the company's securities premium account, before such shares are redeemed.
5. No company limited by shares shall after the commencement of the companies issue any preference shares which is irredeemable or is redeemable after the expiry of a period of twenty years from the date of issue.

		₹
On application	—	2
On allotment	—	5 (including premium)
On first call	—	3
On second and final call	—	2

Applications were received for 45,000 shares and allotment was made on *pro-rata* basis to the applicants of 36,000 shares. Money overpaid on applications was employed on account of sum due on allotment.

Ramesh, to whom 600 shares were allotted, failed to pay the allotment money and on his subsequent failure to pay the first call, his shares were forfeited. Mohan, the holder of 900 shares failed to pay the two calls and his shares were forfeited after the second and final call.

Of the shares forfeited, 1,200 shares were sold to Krishna credited as fully paid for ₹ 9 per share, the whole of Ramesh's share being included.

- For shares allotted 30,000, shares applied are 36,000
For shares allotted 600, shares applied = $\frac{600 \times 36,000}{30,000}$
= 720 shares
For shares allotted 900, shares applied = $\frac{900 \times 36,000}{30,000}$
= 1,080 shares
- Amount received on application for 36,000 shares (36,000 × 2) = ₹ 72,000
Amount used in application (30,000 × 2) = ₹ 60,000
Amount transferred to share allotment (₹ 72,000 - 60,000) = ₹ 12,000
- Amount to be received on allotment (30,000 × 5) = ₹ 1,50,000
Less : Amount already received with application money = ₹ 12,000
Less : Amount not received by the holder of 600 shares
(600 × 5 - 120 × 2) = ₹ 2,760
Amount received on allotment = ₹ 1,35,240

- (e)** A company has its share capital divided into shares of ₹ 10 each. On 1st April, 2014, it granted 5,000 shares as employees stock options at ₹ 40 per share, when the market price was ₹ 130 per share. The options were to be exercised between 16th December, 2014 and 15th March, 2015. The employees exercised their options for 4,500 shares only; the remaining options lapsed. Answer:

- (d) (i) Calculation of Theoretical Market Price per Share after the Right Issue:**

$$\begin{aligned} \text{Theoretical Market Price} &= \frac{\text{No. of Shares before Right Issue} \times \text{Market Price} + \text{No. of Shares Issued as Right Issue} \times \text{Right Issue Price}}{\text{No. of Shares outstanding before Right Issue} + \text{No. of Shares Issued as Right Issue}} \\ &= \frac{400000 \times 45 + 160000 \times 12}{400000 + 160000} \\ &= \frac{18000000 + 1920000}{560000} \\ &= \frac{19920000}{560000} = ₹ 35.57 \end{aligned}$$

- (ii) The Value of Rights** = Market Price - Theoretical Market Price
 = 45 - 35.57 = 9.43

- (iii) Percentage increase in Share Capital:**

$$\begin{aligned} &= \frac{\text{No. of fresh Shares Issued}}{\text{Total no. of Shares before Right Issue}} \times 100 \\ &= \frac{160000}{400000} \times 100 = 40\% \end{aligned}$$

Working Notes:

1. No. of Shares Outstanding at Beginning

$$= \frac{4000000}{10} = 400000 \text{ Shares}$$
2. No. of Shares Issued as Right Issue

$$= 400000 \times \frac{2}{5} = 160000 \text{ Shares.}$$
